

IEEE MTT-S Young Professionals Booth

IEEE MTT-S International Microwave Workshop Series on Advanced Materials and Processes for RF and THz Applications (IMWS-AMP 2026)
Cairns, Australia, July 22- 24, 2026

Are you passionate about RF, antennas and microwaves emerging technologies?

This engaging session offers a perfect opportunity to connect with fellow young professionals, exchange ideas, and explore career opportunities in the Microwave Theory and Technology domain. Whether you're a student, researcher, or industry professional, this informal gathering is your chance to build valuable connections while enjoying a refreshing cup of tea or coffee. Let's network, learn, and inspire each other for the future!

Stop by the **IEEE MTT-S Young Professionals Booth** to:

- Explore exciting opportunities for career development in the MTT-S community.
- Connect with experienced professionals and peers who share your interests.
- Learn about exclusive resources, events, and initiatives tailored for young engineers and researchers.
- Discover how you can contribute to and benefit from the ever-evolving world of microwave technology!

Don't miss out—come say hello and see how IEEE MTT-S can help shape your future!
